This issue of Library Matters focuses on one of the library's core purposes—encouraging reading! With a collection of over 450,000 items to read, listen to, watch and use, there is definitely something for everyone from babies to centenarians. You can read alone, be read to, or read and discuss with friends old and new. You can enjoy books in a variety of formats, including traditional print books, large type books, ebooks, audiobooks on CD, downloadable and streaming audiobooks, talking books (for those eligible for Macomb Library for the Blind and Print Disabled), and even Playaway audiobook/player combos.

With such a vast collections of items to choose from, it can be tough at times to figure out where to start. Of course, family and friends are always a great resource, but don’t forget the library’s team of professional librarians who can help point you in the right direction. Understanding your personal preferences and values, authors you have enjoyed, and parameters in a school assignment are just a few of the topics a librarian may discuss with you to help you develop a great reading list. Don’t have time to talk to a librarian or are reading this column when the library is closed and want to get a good start? Use our Ten in 10 personalized recommendation service (https://cmpl.org/ten-in-10) to complete a short online interview to receive your own personalized suggested list of titles.

Last, if you are tired of living in a two-dimensional, electronic world, I invite you to enjoy our wonderful library buildings and collections in 3-D. There is still nothing like the joy of the printed book, turning its pages, and not being interrupted by dings, vibrations, popup messages and low battery warnings. Bumping into a neighbor, fellow parishioner, former classmate, coworker, or just saying “hello” to one of your favorite library staff members may trigger that nice sense of joy and connection that has been missing in all of our lives over these past two years.

We look forward to serving you and your family in the near future.

Self-Service Study Rooms at the North Branch
Did you know that our new North Branch has nine study rooms that can be reserved from the comfort of your home and then accessed with a 4-digit pin? That’s right, no staff intervention is needed.
